## PLEASE NOTE

### Antique

The primary colour throughout as per the Standard tile manufacturing process. A secondary colour is subtly mixed at random to give each tile its distinctive appearance.

### Colour Accuracy

Due to the restrictions of colour reproduction on this brochure, actual samples should always be viewed prior to ordering.

### Quality

The concrete tiles are extruded under pressure resulting in a product of high quality. Castcrete roof tiles meet with **SABS 542-2012** standard specification for concrete roof tiles.
